

FOUNDATION™ fieldbus in Water Automation

- Explore the Benefits

FOUNDATION™ fieldbus has proven itself in many industries in thousands of plants over the past decade including several water & wastewater installations. As water becomes ever more precious, there is an increased emphasis on tight control, improved reliability, increased energy efficiency, and improved turnaround planning. Rudimentary instrumentation and automation is no longer sufficient. In this seminar you will learn how instrumentation and systems based on FOUNDATION™ fieldbus provides tighter process control, better integration of predictive diagnostics in daily maintenance practices, easier calibration and checks than hardwired and other alternatives. At the end of the half-day session, you will know where FOUNDATION™ fieldbus is used in water & wastewater treatment plants for faster and cost effective project execution as well as to get improved water quality and lower maintenance and chemicals cost.

AGENDA

- Advantages of digital communication
- Advantage of FOUNDATION™ fieldbus over other bus technologies
- Advantage of FOUNDATION™ fieldbus in the water industry
- Q&A and Lucky Draw – one iPod to be won

EVENT DETAILS

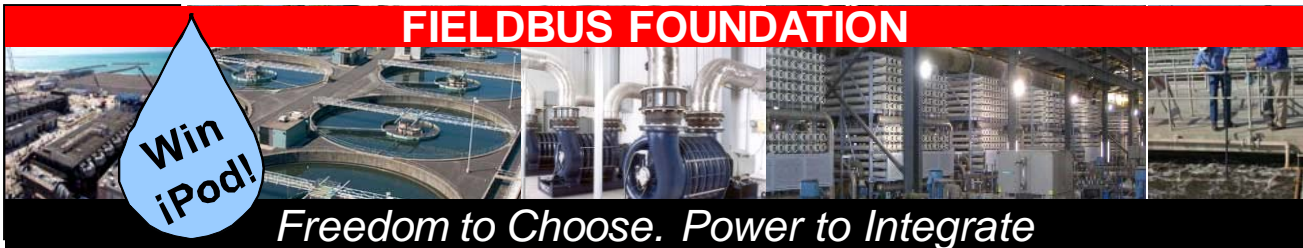

Date: 29th June 2010, Tuesday

Time: Morning session: 9:00AM – 12:00PM (registration begins at 8:30AM), or;
 Afternoon session: 1:30PM – 4:30PM (registration begins at 1:00PM)
 Both sessions will cover the same material

Venue: Suntec Singapore International Convention & Exhibition Centre,
 Gallery East Level 3

You will have the opportunity to get hands-on with FOUNDATION™ fieldbus products from our sponsors:

REGISTRATION FORM

FOUNDATION™ fieldbus in Water Automation | 29 June 2010

Attendance is free! Please register by completing the details below by 21st June 2010. Email the form to: James Loh [ChiaWoon.Loh@sg.yokogawa.com]. Your registration will be confirmed by email. Only pre-registered participants stand to win an iPod.

Company Name: _____

Name: _____

Phone: _____ **Mobile:** _____

Email: _____

Session preference (select one)

- Morning session: 9:00AM – 12:00PM (registration begins at 8:30AM)
- Afternoon session: 1:30PM – 4:30PM (registration begins at 1:00PM)

How did you hear about this seminar?

- Referred by a Colleague
- Company Invitation; please specify _____
- Others; please specify _____

What type of company do you work for?

- End User
- Manufacturer
- Engineering Firm
- Manufacturing Rep.
- Others

REGISTER TODAY... Seats are Limited!
